Proposed Constitutional Amendment

Question:1:

Should the Constitution of Virginia be amended to (i) protect the freedom to make personal decisions about prenatal care, childbirth, postpartum care, birth control, **abortion**, miscarriage management, and fertility care; (ii) protect doctors, nurses, and patients from being punished for these decisions; and (iii) allow for restrictions on access to **abortion** during the third trimester of pregnancy except when the patient's health is at risk or the pregnancy cannot survive?

☐ Yes

☒ No

Remember: When concerned General Assembly members asked to change the verbiage to “adult” they were met with a resounding NO by promoters of the amendment.

They *conveniently* left out predators and traffickers whom would have equal protection under the law. The amendment will prevent those who harm women or break Virginia laws from being held accountable.

Tucked in between care services that are *already protected and practiced every day* in Virginia:

Abortion:

Up to the moment of birth and without any guardrails or safety.
